

Celebrating Flight!

New membership rates/levels effective Jan. 1, 2024

Dear Aviation Museum friend,

Effective Jan. 1, 2024, the Aviation Museum of N.H. will implement revised membership rates and levels. These changes are being made due to rising costs. The price of a basic membership will go from \$35 to \$50 per year, with similar increases applied to other levels.

We hope you will understand that as a non-profit, the Aviation Museum depends on memberships to operate its many programs and activities. Your continued membership is important to the museum at a time when we all face rising costs of necessities such as utilities.

At the same time, however, we are taking steps to add value to your membership. As an example, we are increasing the member discount in the museum store from 10 percent to 20 percent.

We are also making it easier for families or groups to join at a reduced price: the former “family/dual” membership will be replaced by a “group” membership for up to six people, making it now *less* expensive per person for groups of people to become members and support the museum.

Current memberships (those in force as of Jan. 1, 2024) will remain in place until the next renewal date, when the new membership levels will be applied.

You’ll find a complete roster of new membership levels with benefits on the back of this sheet. If you have questions or need more information, please don’t hesitate to contact me either by phone at (603) 236-9237 or via email at jrapis@nhahs.org. Thank you for your continued support of the Aviation Museum of N.H.!

Jeff Rapis, Executive Director

AVIATION MUSEUM OF N.H. Membership fees and levels effective Jan. 1, 2024
