

HELP LEBANON HIGH SCHOOL STUDENTS...

Above: Lebanon High students visit a plane-building workshop in Manchester, N.H. in March 2024.

Your help needed: We're looking for public support to help Lebanon High School students **TAKE FLIGHT** this fall with an innovative plane-building program. Students, aided by faculty and skilled volunteer mentors, will assemble a real aircraft right at the school in a credit-earning course that takes place during the school day.

Why build an aircraft? The **TAKE FLIGHT** program at Lebanon High School will enable students to take STEM learning and put it into practice in the workshop. They'll learn valuable skills that will serve as the foundation for a rewarding career in aviation, aerospace, or any field they choose.

How does it work? **TAKE FLIGHT** is a partnership between Lebanon High School, the non-profit Aviation Museum of N.H., and Tango Flight. When the aircraft is completed (in about two years), it's sold on the open market, with the proceeds used to fund the next aircraft build.

Where we are: We've raised more than \$200,000 to launch this program through foundations and

grants, with more on the way, and using no local school taxpayer funds. But to make our \$300,000 goal, we're now seeking **YOUR** support to make **TAKE FLIGHT** a reality in September 2024.

What you can do: Please consider supporting this terrific and innovative program. A donation of any amount will help **TAKE FLIGHT**...take flight! Info on how to contribute is on the back of this sheet. Thank you for supporting innovation in education, which benefits us all!

FOUR WAYS To Support TAKE FLIGHT

at Lebanon High School

*We've raised over \$200,000, with more on the way.
Help us make our \$300,000 goal to launch this program!*

- 1. SCAN THIS CODE**.....▶.....▶.....▶
